CREATIVE THINKING & VISUAL STORYTELLING

VUCAVU.EDUCATION

Since the platform's inception and in direct consultation with our content partners, VUCAVU has wanted to make the independently made Canadian film and video art in our shared catalogue more accessible in educational settings. Through innovative thinking and in keeping the fair payment of artists at the forefront, we are developing digital solutions to make this possible!

VUCAVU'S CURRENT EDUCATIONAL RESOURCES:

- 1 Request a free, time-limited Educator Accounts to preview and select works for educational licensing.
- 2 Select from 1,500+ films and videos available to the public or choose from an additional 4000+ hidden pages reserved for research and licensed classroom screenings.
- 3 Curate a secure Private Class Page to fit your class needs with any works found in the shared catalogue. Include teaching prompts, reference links or embed instructional PDF's directly in this class page.
- 4 Discover works that span 50+ years of Canadian moving image art and include documentary, fiction, experimental, and animation.
- 5 Show films with unique cultural perspectives and from a diverse group of artists.
- 6 Present works in multiple languages that are accessible for anywhere with an internet connected device.
